**"I promise this will be the best
seminar you attend this year!"
-Sifu Kevin Seaman**

ing techniques. This highly efficient, combat proven art emphasizes an understanding of motion, body angulation, timing and footwork. The stick portion of this seminar will concentrate on single and double stick use. There will also be a special section on Filipino Knife Defense, both unarmed, and armed, with the emphasis on effective environmental usage. Using the tools you have around you!

One of Sifu's students who works club security just recently stripped a knife from a would-be attacker using one of the techniques that will be taught at this seminar. You will learn more in this seminar than you could possibly ever imagine!

This seminar will be awesome! The seminar will have a limited registration of 30 people, so register today !!

Sifu/Guro Kevin Seaman will share his experience of over 30 years of study in various martial arts systems in this highly informative seminar. He is currently one of a select few, having achieved the rank of "Full Instructor" in both Kali & Bruce Lee's Jun Fan/Jeet Kune Do under Sifu Dan Inosanto. **The section taught will focus on the Filipino art of Kali.** Kali is an ancient martial art and science of the Philippines dating back to the ninth century. Kali is one of the most effective and comprehensive martial art systems available today. Encompassing an entire spectrum of weaponry, Kali also features sophisticated "empty hands" techniques, kicks, knees, sweeps, throws and joint locking
